DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-36 and 48-53, drawn to speech encoding, classified in class 704, subclass 219.
 - II. Claims 37-43, drawn to a pitch detector, classified in class 704, subclass 223.
 - III. Claims 44-47, drawn to a preprocessor, classified in class 704, subclass 200.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions III and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a speech encoder. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group III, restriction for examination purposes as indicated is proper.

Art Unit: 2655

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. During a telephone conversation with Joana Chu on 9-7-04 a provisional election was made without traverse to prosecute the invention of Group 1, claims 1-36 and 48-53. Affirmation of this election must be made by applicant in replying to this Office action. Claims 37-47 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joana Chu on 9-7-04.

The application has been amended as follows:

In claim 3, line 1, "claim 3" has been changed to --- claim 2 ---.

Art Unit: 2655

In claim 7, line 1, "claim 7" has been changed to --- claim 6 ---.

In claim 52, line 1, "claim 49" has been changed to --- claim 48 ---.

In claim 53, line 1, "claim 49" has been changed to --- claim 48 ---.

Authorization for this examiner's amendment was given in a telephone interview with Joana Chu on 9-15-04.

Claims 37-47 have been deleted as directed to a non-elected invention.

REASONS FOR ALLOWANCE

9. The following is an examiner's statement of reasons for allowance: The prior art of record, Grabb et al. (6,094,629) show various speech encoding schemes which include linear prediction, line spectral frequencies, converting LSF to LPC vectors, calculating pitch and gain. In regard to claims 1,22,30, and 48, the prior art of record do not show or suggest a naturalness enhancement module connected to the content extraction module and a pitch detector, the content naturalness enhancement module including means for extracting parameters from the LP residual signal, wherein for an unvoiced signal the extracted parameters include pitch and gain and for a voiced signal the extracted parameters include pitch, gain and excitation level, and a quantizer for quantizing the extracted parameters and generating quantized parameters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
